

# KANDREGULA V S S V P KRISHNAMURTHY

## AI & Platform Product Manager

Hyderabad, Telangana | +91 98490 85978 | [kkandregula@gmail.com](mailto:kkandregula@gmail.com) | [linkedin.com/in/Krishnakandregula](https://www.linkedin.com/in/Krishnakandregula)

### PROFESSIONAL SUMMARY

Product Management leader with 20+ years building AI-enabled platforms and enterprise products. Deep expertise in Agentic AI, Generative AI (GPT-4, LLMs), and scalable EdTech/SaaS platforms. Proven track record defining product strategy, launching MVPs, and driving 0-to-1 innovation for digital learning solutions. Strong technical foundation with hands-on experience in AI workflows, platform architecture, and cross-functional product delivery across Healthcare, Financial Services, and Government sectors.

### CORE PRODUCT & TECHNICAL SKILLS

#### Product Management

Product Strategy & Roadmapping • 0-to-1 Product Development  
• MVP Definition • Platform Architecture • User Research & Design Thinking • OKRs & Metrics • Go-to-Market Strategy

#### Technical & Platform

API Design • Platform Scalability • n8n Workflows • Python • System Integration • EdTech Platforms • SaaS Architecture • Cloud Technologies

#### AI/ML Capabilities

Agentic AI • Generative AI (GPT-4, LLMs) • AI Workflow Design  
• Prompt Engineering • RAG Systems • AI Product Integration • ML Product Strategy

#### Product Delivery

Agile/Scrum • Cross-functional Leadership • Stakeholder Management • A/B Testing • Data-Driven Decision Making • Feature Prioritization

### PRODUCT MANAGEMENT EXPERIENCE

#### Director – Innovation (Product Leadership) | *Brainovision, Hyderabad* | Nov 2025 – Present

- Defined multi-year AI product roadmap for EdTech platform serving 10,000+ learners with personalized learning paths
- Led 0-to-1 development of AI-powered learning platform using GPT-4o for content generation and adaptive learning
- Built strategic partnerships with academic institutions for product co-creation and pilot validation
- Established product metrics framework (OKRs) tracking user engagement, retention, and learning outcomes

#### Product Manager (Capstone Project) | *IIT Patna – Product Management & Agentic AI Program*

- Recruit AI – Agentic AI Hiring Platform:** Built end-to-end MVP for automated candidate screening using multi-agent AI system
- Defined product vision, user stories, and success metrics; conducted user research with 15+ HR professionals
- Designed agentic workflow architecture (GPT-4, n8n) for resume parsing, candidate scoring, and intelligent shortlisting
- Delivered working prototype with 85% accuracy in candidate matching; reduced screening time by 70%
- Product demos: [resume-vs-jd.lovable.app](https://resume-vs-jd.lovable.app) | [resumecheck4job.lovable.app](https://resumecheck4job.lovable.app) | [github.com/kkandregula-AI/recruit\\_ai\\_backend](https://github.com/kkandregula-AI/recruit_ai_backend)

#### Independent Consultant – Platform & Program Leadership | Jun 2012 – Oct 2025

- Led enterprise platform modernization programs for Fortune 500 clients with \$5M+ budgets
- Defined platform strategy and architecture for healthcare compliance and financial services platforms
- Drove stakeholder alignment across product, engineering, and business teams for multi-year platform roadmaps
- Established product delivery frameworks improving time-to-market by 30% and reducing technical debt

#### Platform & Technical Leadership Roles | *Spectraforce, HCL, Satyam, Wipro* | Oct 1995 – May 2012

- Led large-scale platform migrations and enterprise system modernization across government, telecom, and healthcare
- Managed global delivery portfolios with cross-functional teams spanning product, engineering, and operations
- Built specialized platform practices for legacy modernization, compliance systems, and cloud migration

### KEY PRODUCT ACHIEVEMENTS & METRICS

- AI Platform Launch:** Reduced time-to-market by 25% for digital education platform through rapid prototyping and iterative user testing
- Agentic AI Product:** Achieved 85% matching accuracy and 70% reduction in manual screening time for recruitment platform
- Platform Modernization:** Led 3 major enterprise platform migrations serving 100K+ users with 99.9% uptime

- **Product Innovation:** Delivered 5+ AI-enabled features driving 40% increase in user engagement and retention

---

## PRODUCT TOOLS & TECHNOLOGIES

**Product Management:** Jira • Confluence • Figma • Miro • ProductBoard • Amplitude • Mixpanel • Google Analytics  
**AI/ML Stack:** GPT-4 • Claude • OpenAI API • LangChain • n8n • Python • Prompt Engineering • RAG • Vector DBs  
**Development & Platform:** API Design • GitHub • Lovable • Cloud Platforms • Database Design • System Architecture

---

## EDUCATION & CERTIFICATIONS

<b>Product Management &amp; Agentic AI</b> – IIT Patna (Masai School)   2025	<b>Artificial Intelligence &amp; Machine Learning</b> – IIIT Hyderabad (TalentSprint)
<b>M.Tech – Remote Sensing</b> – JNTU Hyderabad	<b>B.Tech – Electronics &amp; Communication Engineering</b> – JNTU Kakinada
<b>Global Business Leadership (CGBL)</b> – U21 Singapore	<b>PMBOK Certified</b> – Project Management Professional Training
